

Club Choices 2015-2016 – Winter/Spring Term

Please select your top three choices for clubs through December. All Science club 7th and 8th graders who are in the science after school research program MUST attend whenever this is scheduled.

1. _____ History Films Club – with Mr. Tenney - A history documentary film is an engaging account of something that happened, citing actual research and pictorial and/or video imagery. A history “feature film” is a drama with script and actors, possibly even a fictional story line, such as *Dr. Zhivago*, that is a treatment of an important historical event. We will view both documentary and feature films.
2. _____ Community Service Club with Mrs. Price. This club serves as a character leadership group for the Middle School. Members identify community needs and follow through by planning projects and activities based on need. This club also plans the two community service afternoons. I am pleased to be able to offer the Community Service Club again this year.
