

Kindergarten way to pick up crayons:

*A fun method for promoting proper grip with long writing implements (e.g., markers) is to lay the writing implement in front of the writing hand with the tip pointing away from the writer. Pick up the implement near the tip with the tripod grip fingers: thumb, pointer, and middle. Then using the opposite hand, spin the implement around so it moves from being under the wrist to resting between the thumb and pointer finger for the writing position.
