

THE SECOND GRADE STATE FAIR

May 20th, 2016

We had a relatively easy time choosing states for our State Fair. Here is the way it worked out:

Marcus: New Jersey Gael: Hawaii Maddie: Washington Mia: California
Ailia: Arizona Lyra: North Carolina
Ethan: Georgia Mackenzie: Massachusetts Adelaide: Pennsylvania Irene: Florida

When we set up for our class visitations, each child will have room for his/her presentation board and the section of the table in front of it. Some components that should be part of your child's report include maps, brochures, and photographs. They should also, in some way, show the state flag, motto, nickname, flower, and bird. Other information can include famous people, landmarks, indigenous wildlife, geographic features, teams, and noted events. It is always fun to have a food sample as well. If your child wants to prepare a food that your state is famous for, please be prepared to offer bite-sized samples on a tray with toothpicks or in small Dixie cups for 100 people! Also, all food must be nut-free. Students are not required to write a narrative but must be familiar with every part of the presentation and be prepared to talk to visitors.

I will set up for the fair in the library on Thursday, May 19th after school so I will need your child's presentation board and any other materials dropped off there before that time. Perishable food, however, should be brought in on Friday. Class visits occur throughout the day. **In a change from previous years: Parent visits will be on Friday afternoon at 2:45 with dismissal at 3:15 from the Library. That will allow the parking lot to clear out before you need to walk to your parked cars.**

Here are some photos of previous presenters to give you an idea of what it looks like:
