

Grade 6 Science

Dr. Day

Week 12: November 13th- 17th, 2017

Friction Lab

On Monday we will review the scientific method and begin a multi-part lab on friction. You will learn about some factors that affect the magnitude of a frictional force. At the end of the lab you will choose one of the experiments to do a formal, typed, lab write up on.

Homework: Please see the live updating Homework link under Resources on my teacher page

Monday: No homework

Tuesday: Make sure you have made sufficient progress on the “Think about it” questions from your lab write-up.

Thursday: Over the weekend be sure your lab handout is complete so you can have the information necessary to complete your lab write-up.
