

CROSSROADS ACADEMY  
SCIENTIA VIRTUSQUE

## Grade 8 Science

Dr. Day

Week 22: February 12<sup>th</sup> - 16<sup>th</sup>, 2018

This week we will review what we have learned so far about atomic structure, the periodic table and stoichiometry. We will work on a variety of activities and worksheets to help solidify these concepts before we move on to the atomic age after we return from break.

**You must finish the review pack and turn in all assignments before the end of the week. You will likely be able to do this during class if you are on task.**
