Habitat for Humanity
Persuasive Speech

Did you know that there are 150 Million homeless people in the world? And there are approximately 7.674 billion people in the world! And a big number have no home and nowhere to go! Imagine if it was raining! People are always worrying about how the pets are feeling and believe me that is VERY important. But people need to understand that there are people who need homes and we need to give them homes!

Homelessness is something that should not go unknown. There are people who are not caring because they think they have enough. Take some time in your day to think about the people who can't get an education, who can't eat hot meals, who need your help. Imagine how good it would make you feel if you gave a little something to help these homeless people once a week or month. Homelessness is a huge problem that needs to be solved . New Hampshire has 1.36 million people in it,including us! And about 2,000 are homeless.

Luckily there is a spectacular organization that can change homelessness. And that place is called Habitat for Humanity (HFH). This organization asks for any amount of money and then builds a house for the people who need it when they can't afford a nice house. Habitat for humanity uses the money to build even more houses. Now that is a wonderful deal! The builders for HFH are all volunteers. That's nuts! All of the volunteers are doing this for their communities. HFH has made 29 million houses for everyone that's homeless. HFH is like a vaccine for homelessness. They really are huge time and life savers to many people.

Imagine if that number - 150 million homeless people - dropped to 0, and HFH built them all houses everywhere around the world. Now I'm describing my perfect world and I'm guessing that is your dream as well. You can make that come true! But if there were no HFH there would be millions more homeless people and you can keep that from happening.

Well there are some ways that you can help the HFH. First you can go to their webpage. Type in HFH, go on to their website, and there is a button that says DONATE. You can click on that in the top right corner, and it asks you if you want to donate just now or if you want to donate monthly, you can! HFH asks for donations for money but more importantly for help building houses. HFH is a place where any donation will make their day and just know 100% of your money will go to more people in need. Talk about a really sweet deal! Now, don't forget to go up to your parents and say, "Can we donate to HFH to help people in need, mom/dad, some kid in fifth grade said that we would help them if we even just donated a tiny amount of money!" Thank you.
